What are the versions available in Alibaba Minisite?

There are 2 versions available to develop your Alibaba Minisite (Alibaba website) - Alibaba Minisite 1.0 and Alibaba Minisite 2.0.

Alibaba Minisite 1.0 version is an old version, not a mobile friendly & having designing limitations while Alibaba Minisite 2.0 version is the latest and it has responsive design features means one can also open in mobile phone without any browsing problem.

We strongly recommend to design your Minisite in version 2.0 as majority of professional buyers view Alibaba account through mobile devices.

Is it possible to upgrade version from 1.0 to Minisite 2.0?

You cannot convert existing 1.0 design into 2.0 version if you need to keep the same design then it is possible by making separate images for mobile.

Can anyone edit existing Minisite after uploading?

Yes, only admin account or sales assistance account can edit Minisite as and when required.

The screenshot displays the 'Customize Style' interface for a Minisite. At the top, there is a navigation bar with four buttons: 'Customize Style' (inactive), 'Manage Pages' (active), 'Templates' (inactive), 'Post' (orange), and 'Save This Template' (grey). Below the navigation bar, on the left, is a sidebar with three settings categories: 'Background Settings' (highlighted with a red box), 'Navigation Settings' (highlighted with a red box), and 'Section Settings' (highlighted with a red box). The main content area shows the 'Background Settings' configuration. It includes a 'Style' section with two radio buttons: 'Customized background' (selected) and 'Default background' (unselected). Below this is a 'Color' section with a small square color picker. The 'Photo' section features a large grey box labeled 'No photo' and an 'Upload' button. To the right of the 'Upload' button, there is a note: '(Maximum photo size: 2000*3000px in JPG, PNG format, less than 2M)'. A link labeled 'How do' is visible in the top right corner of the main content area.
